

Beyond Green Cleaning

Grease Buster™

-  **Powerful** - Concentrated, microbe-powered cleaner which dissolves fats, oils, greases ("FOG") and food wastes.
-  **Fast** - Provides a "deep cleaning" quickly penetrating porous surfaces and attacking greasy, slippery films.
-  **Versatile** - Reduces fly infestations and eliminate odors.
-  **Safe** - Bio-based using only 100% all-natural ingredients.

FoamGun

What is Grease Buster™?

FOG Digester - Grease Buster™ is a combination of all-natural microbes and enzymes to consume fats, oils and greases, as well as food waste. Digests it into carbon dioxide and water. Attacks and dissolves proteins, sugar and greasy soils.

Cleaner - Grease Buster™ provides a "deep-cleaning" of floors, walls, food-preparation surfaces, tables, etc. Penetrates, dissolves and removes tough soils from a variety of surfaces on a daily basis. Safe for use on any water-safe surface.

Why is Grease Buster™ Better Than Degreasers?

Degreasers only smear FOG and re-deposit the oily, slick residue on floors, walls and equipment "re-greasing" the surfaces. The use of standard degreasers only emulsifies or liquefies the FOG and allows it to re-deposit in hard-to-reach areas, drains and grease traps. Unlike degreasers, which only liquefy FOG, Grease Buster™ digests it completely eliminating the slick, oily film.

Where to Use?

Kitchens, meat rooms, quarry tiles, service counters, equipment, floors, tables and walls.

How to Apply?

Mopping: Dilute product (1:32 - 1:10) with water depending on grime type and concentration. Saturate area with diluted product and mop in a normal manner or squeegee into drain.

Spray-N-Wipe: Dilute product (1:16 - 1:10) with water depending on grime type and concentration. Spray surface and wipe with sponge or cleaning cloth.

Auto Floor Scrubber: Dilute product (1:25 - 1:12) with water depending on grime type and concentration. For best results, employ the double-scrub method.

Foam Gun: Remove excess grime. Fill foam gun bottle and dilute 1:20. Spray onto all washable surfaces and let set for 5 minutes. Agitate with brush if necessary. Rinse thoroughly with water. Let surfaces air dry.

How is It Packaged?

It is packaged - 750ml, 5L, 20L

Product Advantages

Consumes FOG.

Provides a deep cleaning.

Concentrated formula.

Eliminates slippery floors.

NSF-approved.

Neutral pH.

Product Specifications

pH:	Neutral
Appearance:	Liquid
Color:	Amber
Flash Point:	None
Fragrance:	None
Shelf-Stability	One year
